Professional Summary

Software Engineering undergraduate with experience in full-stack web and mobile application development and digital platform solutions. Skilled in **React, Node.js, Express, MongoDB, Java, Python, and REST API development**. Experienced in Project development, process documentation, system design, and database management. Strong problem-solving, communication, and teamwork skills, with the ability to support digital transformation initiatives. Seeking a MERN Full Stack Developer Internship to gain hands-on experience building web and mobile applications and contribute to collaborative digital solutions.

Education

BSc (Hons) in Software Engineering - MOHE Sep 2022 - Present
CINEC Maritime Campus, Malabe.
Current GPA – 3.96

Central College, Kekirawa
Advanced Level (Physical Science Stream) – 2021

Technical Skills

Programming Languages: Java, Python, C, C++

.NET Development

Server-side Development: Node.js, Express.js, PHP

Web Design & Development: Next.js, React, JavaScript, TypeScript, HTML, CSS, TailwindCSS

Cloud & DevOps: AWS (EC2, S3, IAM, Lambda), Docker, Kubernetes, Jenkins, GitHub, CI/CD

Databricks (BI and Data Analytics)

Database Management: MySQL, Firebase, MongoDB, PostgreSQL

Data Analysis & Machine Learning: Python

Automation Testing: Selenium, JMeter

Project Management & Collaboration: Jira

Version Control: GitHub, Git

Projects

Techstrike Club Official Website

Sep 2025 - Jan 2026

- Built a full-stack web application using React.js, Node.js, MongoDB, and Tailwind CSS, supporting 250+ users.
- Planned user and event management with full CRUD functionality, reducing manual coordination by 60%.
- Developed an admin dashboard and deployed the system using Vercel and Render.

Chill Grand Restaurant Management System

Nov 2025 – Present

- Designed a POS system and customer website for a real client, supporting QR-based ordering for 100+ daily orders.
- Collaborated with staff and members to collect requirements and present structured project proposals. Implemented live menu updates and billing automation, reducing order processing time by 40%.
- Trained machine learning models for bill verification, menu prediction, and inventory updates.

Easy Auto vehicle selling and buying mobile application

Nov 2025 - Present

- Created a cross-platform mobile application for a real client using React Native and Node.js.
- Integrated AWS S3 for image storage, handling 500+ uploaded vehicle images efficiently.
- Implemented PayHere payment gateway, enabling secure online transactions and improving payment success rate.
- Designed REST APIs to manage users, vehicles, and bookings with optimized response times

Learning Management System (LMS)

Jan 2026 – Present

- Prepared a Java Spring Boot LMS with Firebase backend to manage courses, assignments, and users.
- Implemented CRUD operations across modules, improving academic workflow efficiency.
- Added automated email notifications using JavaMailSender.

Leadership & Activities

- Director, Techstrike Club, Cinec Campus (2025–2026)
- Professional Development head Techstrike Club, CINEC Campus (2024–2025)
- Student Committee Member, 6th CINEC International Research Symposium 2025

Certifications

- | | |
|--|--------------------|
| • AI/ML Engineer – Stage 1
Faculty of computing SLIIT UNI | Dec 2025 - Present |
| • DevOps Foundation Course
Intellipaat Academy | Jan 2026 |
| • AWS Fundamentals
Intellipaat Academy | Jan 2026 |
| • HackBlast 2024 – 1 st Runners UP
IEEE Student Branch CINEC Hackathon Competition | March 2024 |
| • SQL Analytics and BI on Databricks
Simplilearn | Jan 2026 - Present |

Languages

Sinhala – Native
English – Fluent (Written & Speech)
